

IdentityIQ Implementation and Administration: Essentials Answer Key

Version 8.1p1b

Section 1

Page	#	Answer
Exercise 1		
1-10	1c	IdentityIQ version and patch differ based on course version
1-11	2d	Home, My Work, Identities, Applications, Intelligence, Setup
1-12	2fii	Attributes, Entitlements, Application Accounts, Policy, History, Risk, Activity, User Rights, Events
1-12	2fiii	No
1-16	6di	10 (Identity, Access Review, Role, Entitlement, Activity, Audit, Process Metrics, Access Request, Syslog, Account)
1-16	6dii1	Audit
	6dii2	Identity
	6dii3	Entitlement
Exercise 2		
1-32	4a	2
1-32	4b	Multi-Valued
1-32	4c	Because Sandra's HR Employees account has inactiveUser=TRUE. In the Rapid Setup application aggregation configuration, you specified the HR Employees accounts with inactiveStatus = true represent disabled accounts.
Exercise 3		
1-39	4a	Multi-Valued, Group Factory
1-40	5a	Identity
1-40	5b	Group Factory
1-42	7a	Because the Manager Identity Attribute has attribute type: Identity
1-46	1a	Yes
1-46	1b	Gear > Global Settings > Identity Mappings
1-46	2e	2
1-46	4a	9
1-47	5e	Executive Management
Exercise 4		
1-58	2a	Operations
1-58	2b	Compliance Officer, Full Access Admin Console, Rapid Setup Configuration Administrator
1-59	7c	Because he's a member of the Admins workgroup, and you gave that workgroup the System Administrator capability
Exercise 5		
1-62	7ci	Managed, Entitlement, Multi-Valued
1-62	7cii	A: 3, B: 1, C: 2
1-63	7ciii	group
1-66	2a	System Administrator
1-67	4	Circled: groups, objectClass
1-67	4a	In the account schema found on the LDAP application definition, Configuration > Schema page. This account schema was populated when you selected the OpenLDAP – Direct connector.
1-69	1bvii	A: 2, B: 1, C: 3
1-71	4a	The identity attribute was populated during aggregation
1-72	6a	Aggregation from LDAP
1-72	6b	No

IdentityIQ Implementation and Administration: Essentials Answer Key

Version 8.1p1b

1-72	7a	Promote managed attributes
1-73	8a	Rapid Setup, 'Create Entitlements That Cannot Be Requested'
1-73	9a	153
Exercise 6		
1-74	1c	IdentityIQ
1-77	3ciii	No
1-77	3civ	In the authentication questions configuration, you required only 2 questions be asked to authenticate
1-77	3e	LDAP; because pass-through authentication is configured
Section 2		
Page	#	Answer
Exercise 1		
2-12	2	merge
2-13	3	UIConfig
2-13	4	The goal is to add to the UIConfig, not to overwrite it.
Exercise 2		
2-20	3	Postpone and Delete
2-20	3a	Line through: Process events
2-20	3bi	filter
2-20	3bii	group or population names
2-21	5a	236
2-21	5b	236
2-22	6a	8
Exercise 3		
2-27	7a	User Name
2-27	8a	No, The correct identity is not named 'Judith', Judith.Tucker is not the correct identity.
2-27	11	The Finance account name Judith.Warren did not match the identity name Judy.Warren
2-30	2b	Aggregation
Section 3		
Page	#	Answer
Exercise 1		
3-4	3c	1
3-4	4i	1
3-5	2a	TRNG-TestRuleRunnerTask
3-8	1	5 minutes (or less) from now; 2 AM; 12:00 AM; 12:00 AM; 12:00 AM
3-8	2a	8: Prune identity snapshots; Prune task results; Prune requests; Prune provisioning transactions; Archive and prune certifications; Prune batch requests; Prune syslog events; Prune Attachments
3-8	2b	90
3-8	2c	5: Archive and prune certifications; Automatically close certifications; Finish certifications; Transition certifications phases; Scan for completed revocations
3-8	2d	3: Process background workflow events; Number of background workflow threads; Workflow thread timeout
3-9	3a	Fail
3-9	3b	Admins workgroup; specifically the 2 members (Walter and Carl) and their group email address

IdentityIQ Implementation and Administration: Essentials Answer Key

Version 8.1p1b

3-10	5a	Warning
3-10	5b	No
3-11	1c	Yes
3-11	3aii	Aggregate Non-authoritative Applications task. Because it is a sequential task launcher, and it continues to run as it launches each specified task.
3-11	3bi	This answer varies based upon your environment.
3-12	3ci	It varies based upon your environment.
3-12	3cii	It varies based upon your environment.
3-12	4a	No
3-12	4b	No
3-12	4c	Default user access, access to the Administrator Console, and access to Rapid Setup Configuration.
3-12	5	Mary is a member of the Operations workgroup
Exercise 2		
3-14	5ci	8
3-15	5d	Entering trace(msg = 8 total identities refreshed.); Exiting trace = null
3-15	4a	11
3-16	2	No; they are commented out. But now they are available to turn on if needed in troubleshooting.
Exercise 3		
3-18	1e	8.1
3-18	1ei	p1
3-19	3e	costcenter
3-19	3g	HR Employees
3-19	3h	LDAP
3-23	3b	Objects, Identities, Workflow, Certifications
3-23	4b	get rule TRNG-ManuallyRunRule
3-24	6a	count rule
3-24	6b	39 (this may vary dependent upon your environment)
3-24	7a	Return results are printed directly to the console
3-24	7b	println output is printed directly to the console
3-24	8b	No confirmation – it just deletes
Exercise 5		
3-35	2	These entitlements had owners specified (via upload) in the entitlement catalog
3-38	8	Reminders (Bell icon) > Others category, Access Reviews Quicklink, My Access Reviews widget, My Work > My Access Reviews menu navigation
3-39	1a	Time as shown in Task Results, Date Complete column (or in Scheduled Tasks, Last Execution column)
3-40	1b	Time as shown in Scheduled Tasks, Next Execution column
3-40	2b	Revocation
Exercise 6		
3-42	2ai	Managers
3-42	3a	approve, reject
3-42	5a	Inactive=false, managerStatus=true
3-42	5b	Manager access for Time Tracking
3-42	5c	Manager access for Chat
3-44	2	Roles assignment happens in IdentityIQ. Provisioning of the entitlements is a separate action that requires the Provision Assignments refresh option.

IdentityIQ Implementation and Administration: Essentials Answer Key

Version 8.1p1b

3-45	4a	Detected during aggregation
3-45	4b	Time Tracking entitlements approve and reject
3-45	4c	Yes, Manager access
3-46	5a	It was assigned. Her Manager access business role was automatically assigned because Amanda meets its membership criteria (Manager Status = True, Inactive = False). The role's assignment logic was evaluated during the Refresh Identity Cube task because the option Refresh assigned, detected roles and promote additional entitlements was selected.
3-46	5b	Her Manager access for Time Tracking IT Role is allowed by this Manager access business role. We defined this relationship by associating the required IT role to the business role.
3-46	5c	You can submit a request for the role for her.
3-48	2	type == employee AND inactive == FALSE. This is the criteria you defined in the Active employee population
3-48	2	Employees group
3-49	4	input capability on Time Tracking application; asiapacific_read group on Chat; Europe Population
3-49	5	Is Correlated: True; identity cubes created by aggregation of an authoritative applications are created with the flag correlated=true. So this means that the identity originated from one of the authoritative applications Is Inactive: False looks for identity cubes that are 'active'
Section 4		
Page	#	Answer
Exercise 2		
4-15	5a	Manager of the joining identity
4-16	6	RapidSetup - Joiner
4-16	8a	rapidSetupBirthright
4-20	8bi1	Employee
4-20	8bi2	Asia-Pacific
4-20	8bii1	LDAP, Chat, Time Tracking, HR Employees
4-20	8bii2	caroline.martin@demoexample.com
4-20	8biii1	Global Birthright Role, Employees Birthright Role, Asia-Pacific Birthright Role
4-20	8biii2	LDAP: Employees, Chat: asiapacific_read, Time Tracking: input
4-21	9a	Contractor
4-21	9b	Asia-Pacific
4-21	9c	LDAP, Chat, Time Tracking, HR Contractors
4-21	9d	Global Birthright Role, Contractors Birthright Role
4-21	9e	LDAP: Contractors, Time Tracking: input
Exercise 3		
4-29	6b	europe_read group in Chat
4-30	2	the trigger filter evaluation: member of population = true jobtitle change = false region change = true in total: true and (false or true) = true
Exercise 4		
4-32	3biii1	for "owner" approvals and for some certifications

IdentityIQ Implementation and Administration: Essentials Answer Key

Version 8.1p1b

4-34	2c	Owner
4-34	2eii	Parallel, serial, parallel poll, serial poll, any
4-34	2fii	which people should be involved in the approval process
4-35	2hi	approvalScheme
4-38	1a	60 minutes
Exercise 5		
4-42	4	Rapid Setup, 'Create Entitlements That Cannot Be Requested' defaults all entitlements to non-requestable, but you changed this default value making VPN the only requestable LDAP entitlement
4-42	8b	Approval
4-42	8c	Catherine is Irene's manager
4-43	12b	Approval from the Admins workgroup
4-43	12c	Owner approval configuration (manager, owner)
4-44	13c	one approval waiting, for the request for Tammy
4-44	13d	Carl Foster
4-45	2	The next day at 2am
4-47	7b	Retry
4-47	7c	[InvalidConfigurationException] [Possible suggestions] a) Furnish the correct host and port. b) Ensure the OpenLDAP host is up and running. [Error details] Failed to connect to server: training.sailpoint.com:389
4-48	8b	Pending
4-48	8d	[InvalidConfigurationException] [Possible suggestions] a) Furnish the correct host and port. b) Ensure the OpenLDAP host is up and running. [Error details] Failed to connect to server: training.sailpoint.com:389
4-48	9	LDAP application retryableErrors: Failed to connect to server
4-49	4ci	Yes
4-49	4cii	1
4-49	2a	Norma is only allowed to request access for herself
4-49	3	You configured the Self-Service Quicklink population is not allowed to make removal requests
4-52	5	Continue On Policy Violations
4-53	8	Accounts Payable and Accounts Receivable
4-54	12a	Larry.Morgan, Entitlement Owner
4-54	12b	Finance Administration, Application Owner
4-54	1bi	Yes; Larry.Morgan
4-54	1bii	No
4-54	1biii	Yes; Finance Administration
4-55	2b	Work item archiving for approval work items
4-55	2di	Creation of an account – not just adding the approved entitlements – because Cindy does not currently have a Finance account
4-55	2dii	Account Create Provisioning Policy
4-57	5a	You cannot request access already held
4-57	5ci	IT Role
4-57	5cii	managers
4-59	8	Adam's manager Douglas.Flores. Catherine can request for Adam because Adam indirectly reports to Catherine, but the approval goes to his direct manager.
Exercise 6		
4-62	5bi	Username, Display Name

IdentityIQ Implementation and Administration: Essentials Answer Key

Version 8.1p1b

4-62	5ei	Region
4-64	6ci1	firstname, lastname
4-64	6cii1	location
4-64	6ciii1	Static list of Allowed Values
4-64	6civ1	a script that returns a list of distinct jobtitles from existing identities
4-65	8a	LDAP, Chat
Exercise 7		
4-69	2	Application Owner
Exercise 8		
4-70	3ai	Off
4-70	3aii	On
4-70	3aiii	On
4-71	3aiv	On; (WorkItem, TaskDefinition, Policy, ManagedAttribute, Workgroup, GroupDefinition, CertificationDefinition, Bundle, Bundle)
4-71	3aiv1	Reassign Artifacts To Manager
4-71	3av	On
4-71	3av1	Reassign Identities To Manager
4-75	4di	LDAP: Disable
4-75	4dii	Time Tracking: Delete
4-75	4diii	Chat: Disable
4-76	6e	Provisioning Complete, emailSent, Delete, EntitlementAdd, Disable, RoleRemove, identityLifecycleEvent
4-76	6f	Gear > Global Settings > Audit Configuration
4-76	8a	Sara.Berry
4-76	8b	Sara was Caroline's manager
4-76	3a	The default values are the same as the leaver processing.
4-78	1ai	HR Employees, LDAP, Time Tracking, Chat, Finance
4-78	1aii	LDAP: VPN, Employees Finance: Accounts Payable, Accounts Receivable Chat: americas_read Time Tracking: input, approve, reject
4-78	1aiii	Manager access
4-78	1c	Accounts Receivable
4-79	3a	ManagedAttribute Owner - Accounts Receivable
